## PC Win Boot

PC Win Boot is a professional, reliable tool for creating boot discs or bootable USB drives with a few mouse clicks. Simple to use with one of the fastest CD/DVD burning programs available. Main features: - Ability to create both Windows and Linux CD/DVD boot discs. - Choose from a wide range of backgrounds for your boot disc, including scanned photos, landscapes, and windows backgrounds. - Choose to include a free 3MB Windows Starter Edition disc if desired. - Bootable USB drive creation included for both Windows and Linux, so you can burn the ISO directly to the USB stick. Description: In three simple steps, you can burn your ISO file to a CD, DVD or USB stick (both physical and virtual), using the fastest burning program available. Features: \* Burn ISO file directly to CD/DVD or USB media, from either Windows, Linux or Mac operating systems. \* Create bootable ISOs for Windows, Linux, and other operating systems, including the free 3MB Windows Starter Edition. \* Choose from a large selection of high quality backgrounds, or scan a photo to create an amazing picture as a background for your boot disc. \* Includes Windows Batch files to help make your job easier. \* Open/Save/Run files in either your Windows Explorer (or Nautilus) windows or your CD/DVD/USB drive. \* Support for portable files. \* Lots of other options. \* Works with any CD/DVD drive. \* Supports reading of older CDs/DVDs. \* Supports Mac CD/DVD drives, including PPC and Intel. \* No installer needed. \* No limit on number of files or files of size. \* CD/DVD/USB burning speed is not affected. \* Burn multiple files at once. \* Burn to either ISO or data DVD. Free version allows unlimited CD/DVD burning. Please Note: PC Win Boot does not support writing to CDs/DVDs that are formatted in 3rd party formats (e.g. Blu-Ray, etc). \*\*\*Requires the "AACD DISK UTILITIES" application (published by MSI) to install\*\*\* A program that helps you perform operations on the windows install CD (also works on any bootable CD/DVD that contains the windows installer). It can modify the bootloader to load the windows installation CD/DVD directly and perform the set up procedure with all

### What's New In PC Win Boot?

PC Win Boot is a piece of software that allows users to create boot discs or bootable USB drives with only a few mouse clicks. Straightforward interface The application has been designed to fit the needs of users of all types, regardless of their computer skill level, courtesy of a simple, intuitive interface. One thing that needs to be mentioned right from the start, however, is the fact that users need to install the Windows Automated Installation Kit (WAIK) in order to be able to take advantage of this software's capabilities. The program's main window provides users with the possibility to select a working folder, which has to be empty for the operation to be successful. It also allows users to find WAIK on their computers to get started with the building of ISO boot images or the creation of USB boot drives. In the event that users want to build a USB boot disk, they need to format it and mark it as active before kicking off the process. Easily add applications to boot disks Before starting to build their boot disks, users can add applications to it, so as to have them up and running as soon as they finish installing the operating system. Adding programs to the boot image is as easy as it can be. Users need to choose the folder where the app is located, and then they can add a shortcut to the Boot Disk Start menu. The tool allows users to add as many apps as they like to the project, and lists all of them in the main window, for easy management. Fast boot disk creation All in all, PC Win Boot is a snappy tool that allows users to easily create ISO boot discs or USB boot drives. The utility comes with a user-friendly interface that makes it suitable even for beginners. F.A.Q. What is WAIK? WAIK is the Windows Automated Installation Kit, which is needed in order to use PC Win Boot. It allows users to create boot discs or bootable USB drives using a few mouse clicks. What are the benefits of using the software? Using this tool is easy, fast and simple. All you need to do in order to create a boot disk is download the software, mark the folder where you want to store it, create a bootable disc and that's it! How do I use the software? To install a bootable USB or an ISO, you can select the folder where you want to store the boot disk on your computer and then start building the boot disk. There's an easy-to-use interface that allows users to choose the installation language, whether to create an ISOLINUX or ISO-based boot disc, the size of the storage space and the number of applications they want to add to the boot disk. I need some more features. In order to create the boot
