Do you usually check HN at 6AM, or a little later? Do you start your day with HN? I'd love to hear about what other people do in their day. ===== gadders Usually check the headlines at 8:45AM, browse replies for the big issues, and find out what people are working on at 11:30AM. I try and work out what other people are working on before it goes mainstream. I don't usually "start my day" with HN, and normally just browse the threads when I wake up. Improved assay for the simultaneous determination of aminoglycoside and beta-lactam antibiotics in plasma by high-performance liquid chromatography with fluorescence detection. Plasma concentrations of aminoglycoside antibiotics (AGAs), beta-lactam antibiotics (BLAs), and the beta-lactam antibiotics-aminoglycoside (BLA-AG) antibiotic complex after administration of therapeutic doses of gentamicin, amikacin, and ticarcillin/clavulanate are presented. In this assay, the plasma samples were incubated with beta-lactamase and glycopeptide deaminase enzymes f30f4ceada
