Hyperthermic anticonvulsant action of the Ca<sup>2+</sup> channel blocker nimodipine: evidence for metabolic activation. We report a functional in vitro study of the hyperthermic effect of the L-type Ca<sup>2+</sup> channel blocker nimodipine. Nimodipine

---

induced a concentration-dependent anticonvulsant action, defined as the ability of the drug to increase the threshold for the afterdischarge (AD) in the chronically epileptic Wistar rat. Administration of nimodipine (1 mg/kg i.v.) to sham-operated or unilaterally-lesioned rats was followed by a marked hyperthermic effect of up to 5 degrees C. This response was unrelated to the anticonvulsant effect of nimodipine, since the

---

threshold for the AD did not change significantly in the same rats following the administration of a dose of nimodipine (0.1 mg/kg i.v.) which did not inhibit the electrographic manifestation of the AD. The response to nimodipine was not associated with any temperature-related toxic effect, since a dose of the drug (10 mg/kg i.v.) that did not induce hyperthermia also failed to produce any effect on the afterdischarge threshold. These

---

data strongly suggest that the hyperthermic effect of nimodipine in the chronically epileptic rat is related to its anticonvulsant action, and that it is not mediated by a nonspecific pharmacological effect of the drug. The hyperthermic effect of nimodipine was also observed when the animal was exposed to a room temperature of 25 degrees C, suggesting that it might be associated with a non-specific increase in the metabolic rate of

---

the animal, rather than an increase in body temperature. Lipid metabolism in early jaundiced infants. To evaluate the early effects of bilirubin on

power and novice users can find their way around it, due to its simplicity. Disc 1 – The first episode of the X-Files originally aired on September 11, 1993. Disc 2 – The final episode of the X-Files originally aired on September 22, 2002. I like this movie. It's the best movie I have ever seen about the X-Files. Not only is the story so damn fun to watch, but it completely feels like the show. The setup of the movie is a composite of the original series'

premise and the season two finale. It begins with Mulder and Scully meeting in the basement of the FBI, and
