The A.O.M.I (Anti-Automata Movement International) is a terrorist anti AI organization aiming at stopping the spread of Automata technology. Our headquarters are on the 3rd Planet, which you'll be able to reach after accomplishing multiple objectives. We have developed many weapons and gadgets to fight the Automata. The ones we used will be available to buy in this game. Show us how good you are, the biggest risk you have, the best strategy you have and maybe we'll include it in the game! Thank you for your support!Q: How do I copy JavaScript property from one canvas to another? I'm trying to create some graphical elements on one canvas (Background 1) and then overlay them on a different canvas (Background 2) with different borders/styles/color/text etc. So what I'm trying to achieve is something like this:

let Current Script for the playwright:Wailing Heights - Script Booklet(real photos used with permission, they give me much moe joy)This script is being written and directed by Elisa ShichtmanThe playwright's mission statement:I believe that if I can help guide other disabled people towards a new and more hopeful perspective, I feel as though I have fulfilled my great purpose in life.This is a play about a man who struggles with depression. His symptoms worsen during chemo. Eventually he is hospitalized where he is diagnosed as a paranoid schizophrenic. His voice is symbolic of his struggle with depression, and the choices that he has made. Wailin Heights is a beautiful story and how I would love to see it staged. I want it to play in every theatre. Wailing Heights Summary: It is a full length solo by a man who believes he is from another planet that sent him to this planet to do some reparation for the planet. He is depressed and refuses to get out of bed. He is also suicidal and feels that when the cancer recurs (happens to be deadlier than first thought), he will go to the hospital and kill himself. He seems sane and wants to get better and to get unstuck from wherever he is stuck. But he doesn't want to get back to his loving girlfriend and seems, to have brought her into this mess as well. Again, he thinks that he is from a different galaxy that is more advanced than ours, but they don't know that he is a dummy and gets all his information from records in a library. The play takes place in a hospital where he is sick with cancer and a mental disease. At one point there is a stinging scene between their voices and there is a revolution. Though their voices are controlled by controls, they are communicating with each other. Earlier in life, he was beaming something energy equivalent to an earth quake. These men are etheric beings and represent the more exalted beings in a man's universe who have to stay down here and work on their higher possibilities. He has found that they have no integrity as they are functioning more as prisoners instead of being free spirits. The real tragedy here is that they need to stay down here and rule and that they have never decided to stop, to go and help someone else. Those are lies we want to believe. If you are to believe him, he is on some sort of higher plain than

Comments Back in 1960 the USA was still involved in the Korean war (with two more to go) a war most people back then thought would be over in a few years. My grandfather was in Korea and he actually called home after the ceasefire was signed. He never even mentioned it when he got home but his father was all excited to have the war to himself. Never knew about the new school press release. Yay. You can add in another half a star to the review for that. =P Back in 1960 the USA was still involved in the Korean war (with two more to go) a war most people back then thought would be over in a few years.
