The image is a pattern that is not stretched. I would like to add another layout like the one in the photo, on top of the banner. I followed these instructions: After adding the layout to the fragment_main.xml, I was able to see the new layout, but when the viewpager is displayed, the title bar is only one px high! I'd like the layout to be the height of the status bar. EDIT: As I did not give any answer, I'll make this a picture of my problem: Current status bar height: Idea: A: You cannot add multiple layouts to a title bar, unfortunately. However, you can remove the image and replace it with just the space of the title bar (i.e., leave the buttons and the label). If you do this, you will have a resizable empty box. A: Possible solution: In your activity, create a FloatingActionButton and set its elevation to 10dp. I'm not sure how easy/quick it is to remove the background image, but if you do, then just set it on the FloatingActionButton instead. FloatingActionButton.setElevation(10) Q: A bit confused about the definition of measure. $\int F \mathrm{d}\mu = \int_{E} \text{tbf}\{1\}_{E} F \mathrm{d}\mu$ where $\text{tbf}\{1\}$ is the indicator function. If we want to generalize this definition of the integral to the case where F is a simple function, then we have the

following task; Define $\int f, \mathrm{d}$
