The struggle for power and for fellowship between the Elden and other worldly beings is ongoing. The Elden are revolving around the quadrillion voices of the Elden Ring, and the game is a puzzle of their relationship with the Elden Ring. The Lands Between which opened before the Elden Ring, the vast world you can explore, and the Elden that is intrinsically exposed to the Lands Between, shape the past and the future of the Elden Ring. Today, any individual can have a fair opportunity at the Lands Between by reaching the Threshold. There will be a mystery about the Elden in the Lands Between that changes the world. The Elden Ring is a collective world we are constructing, and you have joined it. It is a world that lacks structure, and in a sense, a world that does not begin yet. The Elden Ring is not yet filled with the voices of the Elden in the past and the present as well as the future of the world. Today, the Elden are more than merely souls that want to connect with each other. It is time to grasp the situation, time to face the reality. The Elden Ring is a world in need of change, and if we do not make it
