"This is one RTS where building a fleet of thousands of starships and colonizing planets is actually fun." Polygon "Astounding - Sword of the Stars: Complete Edition is a thoroughly enjoyable, vibrant, and vast RTS that, despite the competition, makes a pretty damn good case to be the next real-time space battle king of the day and age." I want to do this by going through the chrome.tabs API, but I'm having some trouble getting the pop-up to open at all. When I execute the following code, I get no errors and no pop-up. `chrome.tabs.onOpened.addListener(function(tab) { if (tab.url!= "") { chrome.tabs.create({ url: "", }, function(tab) { chrome.tabs.executeScript(tab.id, {code:'alert("Close, it was you.")'}); }); } });` I know the code here works because when I execute it, it alerts 'Close, it was you.' on the current tab, and not in the pop-up. The following code is an example of the code that works with no real modification: `chrome.tabs.onOpened.addListener(function(tab) { if (tab.url!= "") {`
