FIFA is a football simulation that turns your ordinary action game into real football. With over 400 officially licensed clubs and more than 9,000 real-life players, FIFA gives you unprecedented control over the most important teams in the world. A deep, intuitive and all-encompassing game engine makes it an unparalleled football experience. FIFA is not a re-enactment of a real league. It is the real thing - yours to win. FIFA is a simulation of the English Premier League and its 32 teams. You can play as any of the team and navigate the game by moving the match forward or backward in time. You also decide how the match will end, such as winning, drawing or losing. Every match is simulated and decisions are made based on actual data. No two games will ever be the same and FIFA shows you what it would have been like if the real clubs, managers and players had been in action instead of just you. How do I control the match? You play your matches just like any other football game. Click on the ball and your moves will be calculated based on the situations and opponents. This is a game where every decision you make, every flick of the foot and pass counts. You'll have full control of the match and move your team through the challenge-based gameplay. When do I get to play? As a FIFA Ultimate

Team™ Pro Club Manager, you can manage your team of real players in real matches to earn league, cup, continental and worldwide glory. Your team will play in real matches in the English Premier League, the UEFA Champions League and the UEFA Europa League. Create a FIFA Ultimate Team™ Pro Club Your team will include thousands of players from across the globe from real world clubs. Each club has its own distinctive look, attitude and personality. Choose your team, train them in real training sessions, then add them to your FIFA Ultimate Team™ Pro Club. Buy FUT Pro Clubs Finishing matches in the FIFA Ultimate Team™ Pro Club makes your team of players stronger and more difficult to beat. Selling them is a good way to make a profit. When your team is strong enough, you can sell them to other players, then buy new players to compete against other rival teams. FIFA Ultimate Team™ Beyond FUT Pro Clubs, your team will play real matches in the English Premier League, the UEFA Champions League and the UEFA Europa League
