Pixel Killers - The Showdown keygen generator With Serial Key Download

[Download](#)

Project Summit is a game where the main goal is to reach the top of the mountain before it's too late. Could you overcome the challenges of the mountain? Each time you play the mountain will generate randomly based on different predefined terrain sections. Each biome counts with different types of terrains, as well as some hazards that will make harder to acomplish your goal. Game modes SOLO: Play in a series of time trial levels while you unlock new elemtents that make the game more exciting.ARCADE: Customize your game and compete with other players to see who gets first to the top. Game characteristics

Local multiplayer from 2 to 8 players Singleplayer mode with 9 levels for each of the biomes 3 different biomes to compete (Taiga, Jungle and Desert) 3 different types of terrain in each biome 3 different types of hazards in each biome About The Game Project Summit: Project Summit is a game where the main goal is to reach the top of the mountain before it's too late.
