Video Enhancer 3 With Keygen (2016) A: Restore/reinstall the original application

you used to install the Pro version. Do not use a "despacho" of any kind, like the "original". It is probably a "fake". It would be a simple way to generate a "key" without previous contact. Q: Selected marker is changing to another marker in core data I have a list of locations in my map app and I am able to add a location by placing a marker on it. When I tap on a marker, it calls a function which saves the id of that marker to the database and shows the marker "close" to that id in a table view. So, if I add the first location, when I tap on it, it correctly saves the id and shows the "close" marker, but if I tap on the "close" marker, I get the id of the first location (which is the one I added). Here is my code: MapViewController.h
@property (nonatomic, retain) NSMutableArray *addresses; @property (nonatomic, retain) MapAnnotation *annotation; - (void)addLocation:(NSString *)address;
MapViewController.m - (void)addLocation:(NSString *)address { if (!self.addresses) { self.addresses = [[NSMutableArray alloc] init];
