How to Fix: .Fatal Thunderbird The Thunderbird is a truck driver simulation video game developed by American studio Full Fat Productions. The game was first published by Virtual Theatre on Windows and MacOS. An iOS version was released on December 8, 2008. The game was also released on Android, PlayStation Portable, Xbox 360, and Nintendo DS, with localizations in seven languages. The game requires the player to provide support to a group of truck drivers delivering supplies around the globe. The game features single-player gameplay, online multiplayer, and offline multiplayer modes. The game is known for its high difficulty level and for its unusual musical score. Development and release The game was developed by Full Fat Productions, a game developer that released several other driving-related games such as Super Car Wars. The game was released on September 11, 2006 as an Xbox 360 game. The PlayStation 3 version of the game was released with additional features, but with a reduced price. The PC version of the game received its final release on September 1, 2008. The mobile version was released for the iOS platform on December 8, 2008. The game was also released on Android, PSP, WiiWare, and Nintendo DS. The NDS version of the game features a local multiplayer mode that is based upon the DS' dual-screen capabilities. The DS version is compatible with the DS Lite, DSi, and DSi XL, and was later updated to also work on the original DS. Gameplay The game allows the player to control the motion of the trucks through on-screen controls, while the game also has a GPS system for the trucks to follow a set route. The game also features a Local Multiplayer mode, in which two players can compete against one another. The DS version of the game allows a local wireless network mode, while the DSi version can also play online. The game is designed to be difficult, with the player need to think about their surroundings in order to get through the game's different stages. The PC version of the game also features an online multiplayer mode, in which players can compete against one another with many different trucks. Reception
