Legendary Hunters is the latest volume in our series of class-focused player supplements for the Pathfinder Roleplaying Game. This edition focuses on the hunter and his companion, the Hunter and his animal companion. This class-focused supplement is rated for characters of level 10th to 20th, and includes two player archetypes, one of which is compatible with Spheres of Might and Spheres of Power. This volume also adds five archetypes compatible with Spheres of Might and Spheres of Power, making the class even more useful in every campaign, and six archetypes from the original hunter, bringing the total number of hunter archetypes to ten. As always, the Hunter and his companion are much more than just a player class. They are characters with a personality, interaction points, and a class/race combination that will bring a vast array of options to every game. Often, the animal companion is the most interesting and dynamic member of the party. The Hunter and his companion are the eyes, ears, and teeth of their domain, the defender and protector of the law and the order of their community. Legendary Hunters completely redesigns the hunter class granting it more unique, diverse and iconic class abilities centered around their animal companion. The Hunter is already one of the most versatile characters in the Pathfinder Roleplaying Game, but with the inclusion of new archetypes and class features, it will definitely take on a new and unique identity as a class.

Because the Hunter is such a versatile class and adventurer, we wanted to get it out to the entire world, so, we are offering the Hunter and his companion for sale on DriveThruRPG.
