), etc. K.m. does not require special equipment and can be organized by small enterprises. K. m. can be organized according to several schemes. In a centralized scheme, the entire output is distributed among several workshops operating under common management. In a decentralized scheme, each shop works according to its own plan and receives products only from two sources: from its main unit and from other shops as auxiliary materials.

2010-01-05 10:04. No problem. still, have this

problem. found a sound driver which works,
but wasnt sure how to install it. I think it is of
no use to contact the author of the driver, as

he has no support for linux and he doesn't
want to be bothered. In the volume properties

there is a error "Error on loading driver".. a
